Dr. Hade was knowledgeable, explained the work that needed to be done, and worked very efficiently to complete my dental work. I had gone to a new doctor that was closer to my home in Manhattan, but decided to make the trip back to gentle dentistry because of their high quality of work, efficiency, and excellent patient care. The staff members are all wonderful and helped me transition back easily. I won't be going to another dentist again, even if it means a two hour drive!

I am very particular about my smile and my dentist. From the moment I arrived until I left, everyone was professional, personable and made my experience extremely pleasant. My dentist, Jennifer Hade, was exceptional. Jennifer answered all my questions, was attentative and the results were exceptional. I no longer live In New Jersey, however, I fly in 2x a year for cleanings and any other dental work I need just to see Dr. Hade and Gentle Dentistry. I highly recommend gentle dentistry.

Everything about Gentle Dentistry is inviting and visually appealing--the view I had from the exam room, the design of the offices, the incredible warmth and competence of all the staff. Here's an added value--the pharmacy gift shop on the first floor is very attractive, the people there are cordial and welcoming. Must be the water. The whole area is like an oasis. My experience yesterday was off the charts. I was a little nervous, Dr Spector and Yvette were wonderful. Dr Spector told me exactly what he was going to do and how long it would take. They provided me with headphones and an ipod so I would not hear the drilling as much. I cannot tell you how wonderful that was. They always asked me if I was ok and If I needed a break. Although I went to Dr Spector for cosmetic dentistry, I have decided to switch to him as my primary dentist as well.

Just an appointment for a "cleaning" with Maria, a "top of her game" person, and also a person who will discuss any thoughts you may have, on keeping your teeth in good health. As I have learned, "teeth maintenance" is a "major factor" in

keeping your own teeth, for as long as you can ... definitely a "good thing". As always, the entire staff is courteous, and friendly, and efficient in their assignments. I do recommend any of the "Gentle Dentistry" services.

As a physician, I know just how important it is to have confidence in the individuals who are treating you. When I have visits at Gentle Dentistry, I feel that confidence in the entire staff, from the front desk, to my hygenist and, most importantly, Drs. Migdal and Spector who have treated me. This is a first rate practice with outstanding staff and health care professionals. I can recommend them without any reservation.

Just for a cleaning, on this visit. It was discovered, that I lost a crown and made a couple of appointments (after having a discussion, as to my options), to fix this issue, before having what might have been future problems. I was also given an "expense proposal", which all but eliminates any "surprises" for "peace of mind". Gentle Dentistry staff, is always "at the top of it's game".

the root canal procedure was fine however, I was extreme pain and tried to contact Dr. Spector thru his service twice on sat. night, but had to call again sunday morning in order for him to return call..Extreme pain due to the infection. I would probably recommend that the Oral Surgeon perscribe pain and antibiotic's, espically since the procedures are done on friday. Would not want to go thru this again without some perscriptions already in hand.

Excellent Care, by a group of wonderful, caring, dedicated staff of caring people. State of the art equipment, and knowledge of all the new and up to date Dental Procedures being done. This staff deserves kudos in every area of expertise they offer. Their kind and gentle way makes going to the the dentist an enjoyable experience as opposed to the experiences I suffered through when I was a child and had to go to the dentist. I voe for them as BEST DENTAL PRACTICE IN BERGEN COUNTY everytime "The 201 Magazine" has its annual contest for the best of Bergen County businesses.

Dr. Iona was terrific. He was very personable & calmed my nerves before the root canal. He has such great technique for administering the anesthetic via the needle that I did not feel any pain or discomfort during the multiple injections. He was also very reassuring during the procedure. I would highly recommend him as an oral surgeon.

Dr, Migdal is the best!!!! That's what I was told about 15 or more years ago by a group of women when I moved to Closter. (No insult intended to Dr. Spector - neither I or these women knew him.) Dr. Migdal, in my 10+ years of seeing him, has been willing to work with me according to my wishes - meaning that he has not insisted, unlike other dentists, that I go to all kinds of specialists to treat my teeth and gums. I have "been there, done that" for a number of years; it was a waste of money and

didn't help my "mouth anatomy," which "suffers from poor hereditary influence." Make no misunderstanding - both he and his hygienist insist on excellent home care, and he has cautioned me when a situation might become so bad that I would have to see a specialist. Both he and his junior associate rightly insisted that I must stop smoking before they would fit my mouth for dental implants. I did, and the implants have not had any problems. When Dr. Migdal thinks that his own care may have caused a subsequent problem, he readily says so, and has not charged me to do further work to eliminate the problem. A+ for Dr. Migdal!!!

I was with the same Dental practice since I was a child and was afraid to go anywhere else even once my Dentist retired. My appointment on March 5th at Gentle Dentistry was the first time I have been to any other Dentist for a checkup/cleaning. I can't express how pleasant the whole experience was. Everyone was so nice and so accommodating. The checkup was very thorough and the cleaning was also very thorough and with absolutely no pain at all. I am used to having anxiety, pain and sensitivity during a cleaning or any dental work. I will be sending my 3 sons to your practice as well as my mother and I am highly recommending you to all my siblings and their children. Thank you so much. Jeff McKinley has spoken so

highly of the entire office and convinced me to make an appointment. I'm so glad I did!

To an excellent staff of wonderful people who work together like well oiled machine. I would never use another Dental Practice as long as Gentle Dentistry is in business. My family has been with them for a very long time dating back to the Demarest years when Dr. Spector Sr.'s office was located on Hardenberg Avenue. My husband, my in - laws, family members, and work colleagues whom I have recommended to the practice are or have been patients of Dr. Spector Senior, Doctor Spector Jr, and Dr. Michael Midgal, and the rest of the incredible staff including all of the incredible Dental Hygienists. I cannot say enough good things about these people. Their innovative, state of the art technology makes your visit very calming and pleasant. Their first and foremost concern is the patient. They are lovely, kind and true people who go out of their way to make sure you, the patient, have no complaints and that your comfortable before they begin. I love all of these people and have known them for a long time. They are like family to me and I am proud to say that about everyone who works at

My experience at Gentle Dentistry was fantastic. The initial draw for me was the availability of Saturday hours. It's hard for me to get away from the office sometimes and having the flexibility of appointments on Saturdays is a big plus. The office is beautiful and very well maintained, which are both indicators that the business takes itself very seriously. Every staff member I encountered was very polite and caring. The doctor took her time to explain her findings and show me the photos and x-rays. My hygienist made sure I was absolutely comfortable, using a topical anesthetic and a different cleaning method. Every part of my experience was excellent and I'm very happy to have found a great new dental office.

I have been a patient at Gentle Dentistry for several years and have had multiple procedures ranging from cleanings to extractions to implants. Not only are the doctors kind and courteous, the entire staff is extremely professional in his or her line of work. The office is well organized and the doctors have your best interest in mind. I was particularly impressed when the hygienist took the time to thoroughly explain to me what she could see, while we waited for the doctor. Then when she reviewed my chart and films with the doctor, I knew exactly what she was talking about.

The whole staff was welcoming and friendly, but the hygienist Eileen was amazing. I am a new patient, and she really listened to me. She explained everything she was doing before she did it. And she was extra gentle where I have exposed nerve. I am 43 years old, and it was the most pleasant cleaning experience I ever had. I am so thrilled to have made the change, and I'm having my husband switch to Gentle Dentistry too.

This office was recommended by my wife & mother-in-law. I couldn't have asked for more on my first time visit. Even though I was half and hour late, the office accommodated me to the best of their ability. I'm typically nervous in dental offices, but I can assure you this was the best experience I ever had. March 1, 2014 (approximately) This supercedes (or supplements) my last review as this one is complete. I started the process of receiving a full 6 implant set of upper Hybridge permanent teeth and all is going smoothly. The implants were just inserted a few days ago. The healing process is progressing smoothly and comfortably and the actual insertion

was easy, quick and painless. I had some soreness after the anesthetic wore off, but I took some NSAID pain pills for one night only and the next day the pain became tolerable without any more pain medication needed. I am taking amoxicillin for 7 days to prevent infection.

=====
March 30, 2014 Dr. Migdal did 2 extractions in ten minutes (no exaggeration) 100% painlessly, The shots gave a little pinch but were easy to take. I have a slew of infected teeth, all with abscesses, in my bottom mouth and he is helping me deal with that problem. We are trying to keep my bottom teeth between and including the two canines intact to help me defer the expense of doing a full hybrid set on the bottom for five years, if possible. This practice is worthy of a spot on Good Morning America! Jim Gordon - Haworth resident for 27 years

April 8, 2014 I am 6 weeks into the process of receiving a full 6 implant set of upper Hybrid permanent teeth and all is going smoothly. The implants were inserted 6 weeks ago and are now close to being fully healed. There have been no complications and the implants are just sitting there feeling like they have always been there, waiting for my new teeth, to be placed on them. Dentistry has come a long way at Gentle Dentistry! Dr. Migdal did two more extractions and one restoration (filling) in 30 minutes flat with exactly zero pain, but some good conversation. The dental assistant, Patti, was extremely competent and friendly. What a pleasure! The surgical wounds are healing quickly and comfortably with no sign of infection. I have been thoroughly briefed on the procedures being done at each milestone, in as much detail as I want, with accompanying xrays, treatment plans and a discussion of medical concerns such as possible drug interactions by Dr. Migdal, whose caution and experience have made me very secure. The office staff is top notch. Mary does billing with professionalism, compassion and friendliness. Maureen is always a pleasure on the telephone. Jennifer, another dental assistant, and I share a love of Rhythm and Blues (the real thing). To all of the remaining staff whom I have not yet had the pleasure of meeting, thank you too. Dr. Migdal and I share a love of science and medicine and are actually contemporaries; he is five years

younger than I but 20 years more educated. I have been picking his brain for as much medical knowledge as I can wrangle. I am taking pre-med courses toward a Physician's Assistant masters degree at Pace University and he has, without knowing it, been contributing to my base of general medical knowledge. Jim Gordon

I can say unreservedly that I have never had a more comfortable dental procedure in my entire 61 years of life. The doctor was gentle and empathetic; he has an outstanding chairside manner. The local anesthetic was completely effective and the procedure was entirely pain free. It was actually fun as the doctor and I talked casually about anatomy, one of my major areas of interest. Post-procedure pain was intense for around 2 hours but once the 3 advils I took kicked in I was fine. No narcotics were needed. I slept for 2 hours and the pain was gone. 4 hours after taking the advil the pain returned at which point I swallowed 1 naproxen and 1 advil tablet. I awoke in the morning with minor soreness and continued taking 1 naproxen. I am now fine with minor soreness only. I am taking amoxicillin 3 times daily. jim

I visited Dr. Migdal to discuss a problem I was experiencing. He spent much time and effort to examine and search for possible causes; following which he was able to assure me that there were no issues present pertaining to my dental health. Because of the equipment in the office, he was able to show me my entire mouth in detail and explain all his findings. This is dental care and treatment that everyone should receive. Gentle Dentistry is definitely the place to go.

I saw Dr. Migdal to discuss a particular problem I was experiencing. He spent a great deal of time and effort looking for the cause, and because of the special equipment in the office he was able to show me that the variety of concerns I had expressed were not present. After many years of struggle with dentists who had no idea about biocompatible materials and medically sustainable procedures, my wife finally found a professional group led by Dr Spector and Dr Migdal, and their wonderful staff. They are gentle as they claim, but most importantly provide professional quality dental service for a fair price. Thank you All!

Well, it's not every day that someone has something good to say about a dentist, but my recent oral surgery by Dr. Brisman (with assistance from Dr. Spector in the anesthesia dept.) was probably one of THE most positive experiences I've ever had in this kind of situation. After being so nervous and wound up before coming in for my appointment, both Dr. Spector and Dr. Brisman made me feel like "family", and their efforts to make me feel at ease and comfortable were simply unbelievable. And if it weren't for feeling like got a big gap where there once was a tooth, I'd still swear that either they vaporized the tooth or just made it magically disappear...no pain during the surgery and very little afterwards...I didn't notice when the tooth was taken out...all without feeling so numb that my whole face could have been removed. Nice job, docs!

★★★★★ by Michelle Meisel on 2012-04-03

Everything at Gentle Dentistry runs like a Swiss watch. From the time one enters the soothing and beautifully decorated suites, patients are greeted by a warm staff. Appointments are punctual. Treatment areas are high tech and well appointed with the latest in technology regarding dentistry. Patients are offered iPods to listen during treatment which assists in relieving any anxiety during procedures. Most importantly Dr. Andrew Spector is an incredibly smart and professional doctor, who is able to communicate clearly with his patients, instilling the utmost confidence in the care that each patient receives. While for many patients, a visit to the dentist can be stressful, Dr. Spector truly makes his patients feel relaxed as he thoroughly explains every step of a procedure and assures them that dental should not be painful. He has a warm and winning disposition and is genuinely concerned that his patients are comfortable as he makes sure each gets the best dental care possible. Using 3-D technology and the latest equipment, one is assured that this is no ordinary visit to the dentist. It is a transforming experience with incredible results.

Always a professional experience. My only comment is when the dentist with whom you have an appointment is not in you should be notified in advance so you have the option of rescheduling. I have been to many medical offices. I believe GD maintains the highest of standards of patient care. They are also the most professional, kind, accommodating, caring people I know. Dr Migdal has performed the most simple procedure to now Hybridge Implants. I couldn't be happier with the result. He has treated me with respect and dignity throughout the entire time (at least 10 years) I have had the pleasure of being a patient at this office.
